SPECIAL SERVICES PROGRAMS

The Special Services School: **Psalm 139:14-15**, "I will praise thee; for I am fearfully and wonderfully made; marvelous are they works; and that my soul knoweth right well. My substance was not hid from thee, when I was made in secret, and curiously wrought in the lowest parts of the earth."

The Special Services School was created to meet the needs of families needing more than the regular and advanced programs that RBCS offers. Research indicates that all people do not learn in the same way. It is ineffective to implement the same instructional techniques for all students. Because conventional classroom instruction emphasizes learning techniques that are effective for the majority of students, students who learn through less conventional methods may not reach their maximum potential in the traditional classroom without additional or different techniques of instruction. Our goal is to use the most effective techniques available to develop their God-ordained talents and potential. In light of that goal RBCS offers several Special Services programs.

Students are assessed using a battery of educational, perceptual, and psychological testing before any placement is made in a Special Services program. At parental direction, a student may be placed in the Talent Development, Track Three, Victors' Class and/or Therapy programs.

Early Intervention Development:

The Early Intervention Development serves children with developmental delays, ages 3-7. Older students may be placed in this learning environment if in need of these interventions. can alleviate further struggles in life and school.

Talent Development:

The RBCS Talent Development Program serves children in *grades 1 through 6*. In the Talent Development classroom, students from several grade levels may receive instruction together, similar to the one-room schoolhouse approach.

Track Three:

The Track Three is an alternative academic program for students in *grades 7 through 12*. Track Three is designed for people with average to superior IQ levels whose learning style is different than others.

Track Three Plus: is a remedial program which serves two purposes. Junior High students who are academically two or more years behind. are absorbed into an accelerated back to basics program.

Victors' Class: The Victors' classroom has been created for uniquely designed students who are seeking to fulfill God's plan for their lives. The classroom consists of students with various cognitive challenges.
